

# ISTANBUL MUSEUM OF MODERN ART CORPORATE EVENT AREAS

# NEW MUSEUM BUILDING

Founded in 2004, Istanbul Modern hosts modern and contemporary art exhibitions as well as interdisciplinary programs with the aim of bringing Türkiye's artistic creativity and cultural identity together with society. Conceived as a living space, the new museum building offers visitors the opportunity to discover exhibitions while enjoying an unforgettable experience with their loved ones.

Located at Galataport Istanbul and designed by architect Renzo Piano, the new building provides a multifaceted cultural environment. Its accessible and visitor-oriented architectural approach aligns with the museum's exhibitions and programs that reflect today's artistic diversity. Inspired by the waters of the Bosphorus, the façade reflects Istanbul's light, while the transparent ground-floor design strengthens the building's relationship with its surroundings.

# CORPORATE EVENTS

You can host your corporate events and private gatherings in the distinctive spaces of Istanbul Modern. The museum offers a variety of versatile venues tailored to different formats, including receptions, meetings, seminars, film screenings, cocktail receptions, and seated dinners.

Events can be enriched with bespoke experiences such as private exhibition tours, themed art talks, and art workshops specially designed to meet your organization's objectives.

# WHY İSTANBUL MODERN?

All proceeds generated from events at Istanbul Modern directly support the museum's artistic programs. By choosing the Renzo Piano-designed museum building for your corporate event, you contribute to our mission of connecting Türkiye's artistic creativity with both national and international audiences.
